## -A videography and Storyboarding Workshop

### Description:

In this workshop we will explain the following topics: -

1. Videography – basic to advanced
2. Difference between camera and mobile videography
3. Environment, Light and Camera Angles
4. Studio and outdoor shooting
5. Way of Storytelling
6. Effective Scripting
7. Importance of storyboarding and its visualization

### Requirements:

- Everyone should have their own laptop with a minimum of 8 GB of RAM.
- Should carry one empty pen drive with a minimum memory of 8 GB.
- Carry your own charger for the device you are bringing to the workshop.
- Setup of Premiere Pro on your laptop (if you don't have we will provide you)

### Outcomes:

The workshop equipped participants with valuable skills to create polished and professional videos using Adobe Premiere Pro and gain valuable skills in storyboard creation, scripting, and storytelling techniques. Through hands-on exercises and expert guidance, attendees honed their abilities to craft compelling narratives and translate them into visually engaging videos and camera operation, framing, and editing, enabling them to create visually stunning and professional-looking videos. The workshop not only enhanced technical proficiency but also fostered a deeper understanding of the art of storytelling, empowering participants to create impactful and captivating visual content. The workshop equipped participants with valuable skills to create polished and professional videos using Adobe Premiere Pro.

### Instruction:

- Report on time on the day to collect the material for the workshop
- Doubts are always welcome. Feel free to ask during the session

**(Note: If any queries or any issues regarding the workshop please do contact us from the contact provided on poster)**
